DETAILED ACTION

1. This action is in response to applicant's amendment received on 4/15/04.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 2, 3, 19 and 20 are rejected under 35 U.S.C. 102(b) as being anticipated by Akimoto et al.

Akimoto discloses the (Fig. 1-9) the invention including workpiece-machining device 10, a workpiece-storage device 1, a traveling body 35, a rectangular coordinate movement means 31, a gripping means (36-37), a product-housing section 3, a material housing section 2, additional housing that is capable of storing skeletons as seen in figures 1 and 8, a first direction Y and a second direction X.

Response to Arguments

4. Applicant's arguments have been fully considered but they are not persuasive. Applicant argues that Akimoto's transfer path 7 cannot move above the carrier station 1 and processing section 10. Examiner agrees that the transfer path 7 cannot move above the carrier station 1 and

processing section 10. However, Akimoto traveling body 35 is moved **above** the product-housing section and the material housing section by the transfer path 7 and the driving block 34.
